

**SILICON SOLAR**

INNOVATIVE SOLAR SOLUTIONS™

## SecurePal **36 LED Solar Security Light**

### **DURABILITY**

Tough, Weather Resistant ABS Plastic Body

### **LATEST TECHNOLOGY**

High-Output LEDs, High-Efficiency Solar Panels

### **RELIABILITY**

Works Great In All Climates, Even Upstate NY Winters

### **VERSATILITY**

Use in Motion Sensor Or Manual On (Flood) Mode

## The SecurePal 36LED Solar Security Light

The SecurePal 36LED is a great low-cost solar security light with infrared motion sensor technology. The SecurePal 36LED is perfect home and small business security lighting and flood lighting applications. The 36LED motion sensor light also features a manual ON (flood light) mode and a simple 5 minute installation.

### Product Features

- Passive infra-red motion detection (110 degrees)
- Built-in overcharging protection circuit
- Motion sensor operation / manual ON override
- Minimal assembly, 5 minute total installation time

### Specifications

	SecurePal-36LED
Operation Mode	Motion Sensor
Motion Sensor Type	Infra Red
Motion Sensor Angle	110 degrees
Manual ON/OFF Override	Yes
# of LEDs	36 (super bright)
Dimensions	7.55" x 12.25" x 8.5"
Weight	5 lbs
Cord Length	6'
Chargin Time	6 hours
Run Time	7 hours (intermittent)
Brand	SecurePal
Manufacturer	Silicon Solar
