The SecurePal Plus Solar Security Light

The SecurePal Plus is a powerful, compact and hassle-free motion sensor security light that installs in just minutes with absolutely zero wiring needed. Simply screw your light where you want it, ensure that the sun hits the solar panel during the day and avoid dangerous trips and falls every night. The SecurePal Plus features 12 super bright LEDs and a 350 Lumen light output.

Product Includes

- Low-Voltage Solar Motor
- High-Efficiency Solar Module
- Wire With Motor Clips
