

### Item No. 607041 - Solar Thermal Pump Station

- » Flow rate control
- » Fill and drain ports
- » Supply and return temperature gauges
- » Air separator
- » Anti-thermosiphoning check valve
- » Safety pressure relief valve
- » All brass medium-bearing parts
- » Expansion tank port
- » 2 year warranty

### Features

- Steel wall bracket
- Check valve in supply and return ball valve
- Supply line air separator
- Isolatable pump for easy servicing
- 3 speed circulating pump
- Variable speed input

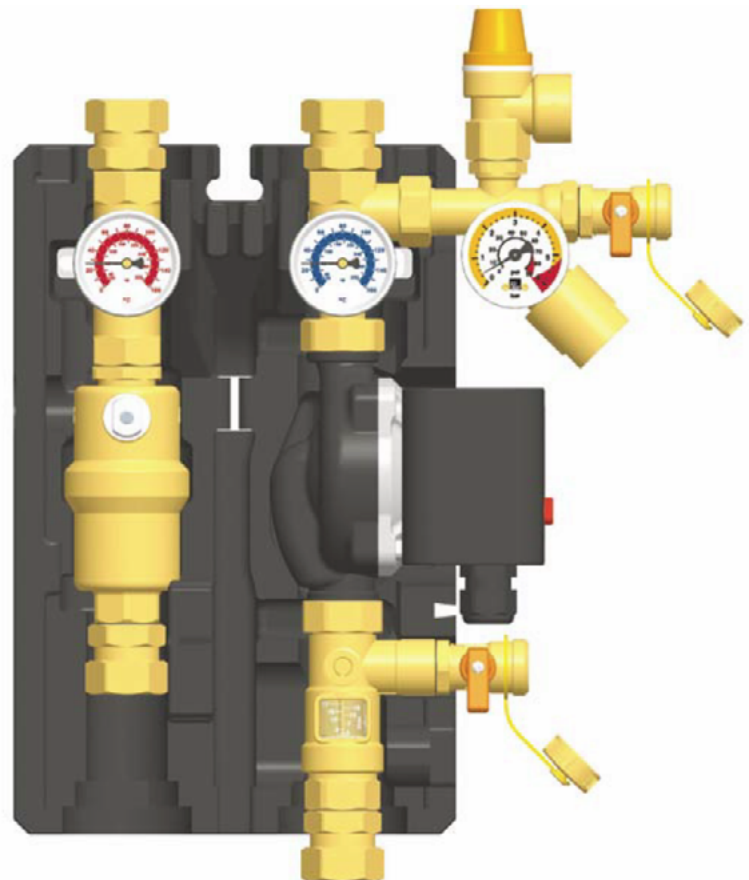

**Flowmeter range:** 0.8-6 GPM

**Max temperature:** Sustained: 266°F Max: 320°F

**Max pressure:** 145 psi, (PRV @ 87 psi)

**Connections:** 3/4" compression fittings

**Pump:** Wilo-Star-S21 U15: 110 Watt, 0.92 Amp Max. , 120 Volt

Flowcon FA Pressure Drop Characteristics
