

Item No. 607042 - Solar Thermal Pump Station

- » Flow rate control
- » Fill and drain ports
- » Supply and return temperature gauges
- » Air separator
- » Anti-thermosiphoning check valve
- » Safety pressure relief valve
- » All brass medium-bearing parts
- » Expansion tank port
- » 2 year warranty

Features

- Steel wall bracket
- Check valve in supply and return ball valve
- Supply line air separator
- Isolatable pump for easy servicing
- 3 speed circulating pump
- Variable speed input

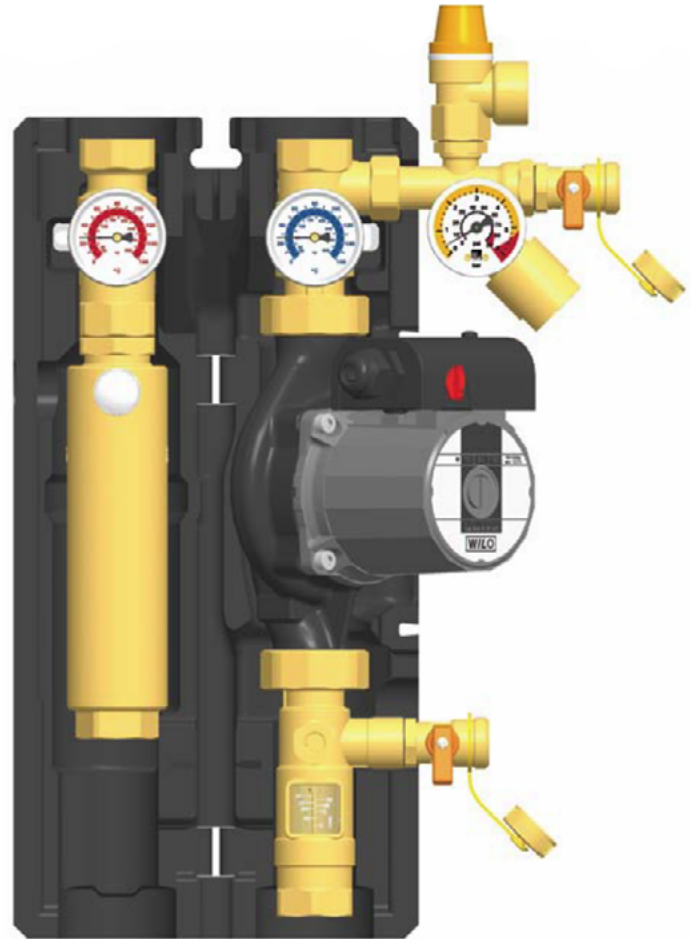

Flowmeter range: 1-10 GPM

Max temperature: Sustained: 266°F Max: 320°F

Max pressure: 145 psi, (PRV @ 87 psi)

Connections: 3/4" compression fittings

Pump: Wilo-Star-S30 U25: 180 Watt, 1.5 Amp Max. , 120 Volt

Flowcon MAX Pressure Drop Characteristics
