

GenLight 2X Solar Sign & Flood Light Specifications

Introduction

The GenLight 2X Solar Sign and Flood Light is the most advanced, easy-to-use, and popular commercial solar lighting system on the market today. Now in its third generation, this is the ideal bargain for anyone looking to light up medium to large signs or large outdoor areas without breaking the bank on installation, maintenance, and operation costs.

Feature

- ⤴ **Use for signs, structures, walls, pathways, & more**
- ⤴ **Compliant with most local lighting ordinances**
- ⤴ **Requires light 15 minute assembly**
- ⤴ **Durable casting fixture & solar panel**
- ⤴ **On/off switch for manual override operation**
- ⤴ **Capable of lighting 10'x15' signage**

Physical Information	
Light Fixture Weight	6.3kg
Light Fixture Dimensions	279x229x89 (mm)
Solar Panel Weight	2.3kg

Quick Sizing Guide		
Dimensions	# of Sides	# Light Kits
10'x14'	1	1
10'x14'	2	2
10'x28'	1	2
10'x28'	2	4

Solar Panel Dimensions	335x279x18 (mm)
------------------------	-----------------

Specifications

Maximum Sign Illumination	10'x14'
Maximum Area Illumination	35'x35' (at 20' distance)
LED Quantity	120 PC
LED Luminous Output	1000Lm
Light Output Equivalency	150-250W Light Bulb
Solar Panel Type	Monocrystalline
Solar Panel Power Specs	10W / 18V
Lighting Circuit Efficiency	85%
Battery Type	Li-Ion
Operation Modes	Auto, Off, Charge Only
Maximum Operating Run Time	8-12hr
