

REFERENCE PROJECT

	Customer:	Northrop Grumman
	Location:	Ocoee, FL
	Project Type:	Sign Lighting
	Install Date:	2015

SOLAR SIGN LIGHTING

Northrop Grumman
Ocoee, FL

The Customer's Problem

Northrop Grumman's lighting contractor needed to illuminate the entrance sign to the company's facility in Ocoee, FL. The lighting system used needed to be of the highest commercial quality and deliver maximum performance to ensure all night lighting even on shorter winter days.

Our Solution

A customized EnviroLight system was chosen as the right system for the client's needs. A total of 2 1600 lumen light fixtures were used in the system, as well as high efficiency solar panels, top line batteries and weatherproof controller storage box.

PRODUCT(S) USED

EnviroLight Custom Commercial Solar Billboard Lighting System
