	Install Date:	6 / 2015

SOLAR SIGN LIGHTING

Baker Electric
San Diego, CA

The Customer's Problem

Baker Electric needed a solar billboard lighting system for a 10' x 24' (plus a 7' extension on the top) billboard for Valley View Casino in San Diego, CA. The customer wanted a commercial-grade, rugged and extremely bright solar lighting system for the billboard.

Our Solution

A custom-sized EnviroLight solar billboard lighting system with 8 light fixtures, solar panels and powerful, weatherproof control box was the perfect mix of affordable pricing and guaranteed performance to meet the customers needs. Our engineers developed the entire system, built it and tested it, then Baker Electric installed the system for Valley View Casino.

PRODUCT(S) USED

EnviroLight Custom Commercial Solar Billboard Lighting System

PROJECT OVERVIEW

The Valley View Casino in San Diego, CA contracted Baker Electric to procure a solar billboard lighting system for the Casino's billboard to generate drive-in traffic. Baker Electric came to Silicon Solar to get the very best commercial solar lighting system available for the project.

Baker Electric purchased the custom-sized billboard lighting system from Silicon Solar and installed the entire system for Valley View Casino.
