

# PatioPal 60W / 36LED Solar Spot Light

PatioPal-GS-SpotLight-36

## Light Fixture Specifications

Model	PatioPal-GS-SpotLight-36
# of LEDs	36 (18 per fixture)
# of Light Heads	2
Light Output (lumens)	600
Light Output (watts equivalent)	60W
Body Material	ABS Plastic
Dimensions	13" x 9" 8.25"
Weight	5 lbs
Mounting Options	Wall Bracket / Ground Stake
Operating Modes	Auto, Off
Max Operating Run Time	10 hours / night

## Solar Panel & Battery Specifications

Solar Panel Type	Monocrystalline
Solar Panel Voltage	6V
Solar Panel Wattage	5W
Battery Type	Sealed Lead Acid
Battery Voltage	6V
Battery Capacity	4 ahr
Charging Circuit Efficiency	90%

## Additional Specifications

Max Sign Illumination Area	4ft x 8ft
Warranty	1 year

## Components & Technical Description

### 1. Dual LED Light Heads

Each of the 2 light heads includes 18 ultra-bright LEDs and is independently adjustable for maximum lighting direction versatility

### 2. ABS Plastic Body

The rugged ABS plastic body is designed to stand up to most climates and houses the sealed lead acid battery and controller unit

### 3. Light Fixture Mounting Options

Mount either with the ground stake and screws for mounting on a wall / fence / post

### 4. High-Efficiency Solar Panel

Converts sunlight into energy used to charge the battery

### 5. Solar Panel Mounting Stake

Used to securely mount your solar panel in the ground to ensure the proper tilt for solar exposure

### 6. Simple Plug-N-Play Connection

Connect the solar panel to the light fixture / battery with a single barrel-jack plug-n-play connector
